

Decision Making under Deep Uncertainty 2020

Escuela de Gobierno y
Transformación Pública
Tecnológico de Monterrey

New Ideas, Frontiers and Transformations
10-12 November, Monterrey, Mexico

The conference consists of plenaries, theme plenaries, long-talk sessions, speed-talk sessions and poster tours

Long-talk sessions

A long talk session consists of either three or six talks, depending on whether the session is 40 or 90 minutes long. Each presenter will give an eight minute talk followed by a joint discussion that will last approximately 15 or 30 minutes, depending on how long the session is. All sessions are chaired.

Speed-talk sessions

A speed talk session will in most cases consist of maximum six talks, although a few of the sessions will consist of up to 12 talks. Each presenter will give a four-minute talk. After the talks the session participants can sit down and have a deeper 15-minute conversation with one presenter. These longer sessions may last for 90 minutes and the chair can choose whether to have one or two rounds.

Poster tours

All posters will be clustered in groups of up to ten, and each poster will be given a time slot during the poster tour. During the tour each presenter will have two minutes to present his/her poster. After the presentation, there will be room for a short discussion. The poster tour will be chaired by a member of the organizing committee.

08:30 – 09:00	Registration
09:00 – 09:30	Introduction to the Training Day (Room H-I-J)
09:30 – 11:00	Interactive exercise: The varieties of uncertainty (Room H-I-J)
